**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 1 — Description of Organization, Business Operations and Basis of Presentation**

two (the “Company”) was incorporated as a Cayman Islands exempted company on January 15, 2021 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

As of June 30, 2021, the Company had not commenced any operations. All activity for the period from January 15, 2021 (inception) through June 30, 2021 relates to the Company’s formation and the initial public offering (the “Initial Public Offering”) described below, and since the Initial Public Offering, the search for a Business Combination. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company generates non-operating income in the form of income from investments in the Trust Account derived from the proceeds of the Initial Public Offering.

The Company’s sponsor is two sponsor, a Cayman Islands exempted limited company (the “Sponsor”). The registration statement for the Company’s Initial Public Offering was declared effective April 1, 2021. On April 1, 2021, the Company consummated its Initial Public Offering of 20,000,000 Class A ordinary shares (the “Public Shares”), at an offering price of \$10.00 per Public Share, generating gross proceeds of \$200.0 million, and incurring offering costs of approximately \$11.1 million (net of a required reimbursement from the underwriter), of which \$7.0 million was for deferred underwriting commissions (see Note 5). The underwriter was granted a 45-day option from the date of the final prospectus relating to the Initial Public Offering to purchase up to 3,000,000 additional shares to cover over-allotments, if any, at \$10.00 per share. The Underwriter partially exercised the over-allotment option and on April 13, 2021 purchased an additional 1,437,500 Class A ordinary shares (the “Additional Shares”), generating gross proceeds of approximately \$14.4 million (the “Over-Allotment”), and the Company incurred additional offering costs of approximately \$755,000 (net of a required reimbursement from the underwriter), of which approximately \$503,000 was for deferred underwriting fees.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 600,000 Class A ordinary shares (the “Private Placement Shares”), at a price of \$10.00 per Private Placement Share to the Sponsor, generating gross proceeds of approximately \$6.0 million (see Note 4). Simultaneously with the closing of the Over-Allotment on April 13, 2021, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 28,750 Private Placement Shares by the Sponsor, generating gross proceeds to the Company of \$287,500.

Upon the closing of the Initial Public Offering the Over-Allotment, and the Private Placements, \$214.4 million (\$10.00 per share) of the net proceeds of the sale of the Public Shares in the Initial Public Offering and of the Private Placement Shares in the Private Placement were placed in a trust account (“Trust Account”), located in the United States with Continental Stock Transfer & Trust Company acting as trustee, and will invest only in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act that invest only in direct U.S. government treasury obligations, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Shares, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. However, the Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The Company will provide its holders of its Public Shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (\$10.00 per Public Share). The per-share amount to be distributed to Public Shareholders who redeem their Public Shares will not be reduced by the deferred underwriting commissions the Company will pay to the underwriter (as discussed in Note 5). These Public Shares have been classified as temporary equity in accordance with the Financial Accounting Standards Board’s (“FASB”) Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” In such case, the Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 and the approval of an ordinary resolution. If a shareholder vote is not required by law and the Company does not decide to hold a shareholder vote for business or other legal reasons, the Company will, pursuant to an Amended and Restated Memorandum and Articles of Association (the “Amended and Restated Memorandum and Articles of Association”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, shareholder approval of the transactions is required by law, or the Company decides to obtain shareholder approval for business or legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Additionally, each Public Shareholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction. If the Company seeks shareholder approval in connection with a Business Combination, the initial shareholders (as defined below) agreed to vote their Founder Shares (as defined below in Note 4), Private Placement Shares and any Public Shares purchased during or after the Initial Public Offering in favor of a Business Combination. Subsequent to the consummation of the Initial Public Offering, the Company will adopt an insider trading policy which will require insiders to: (i) refrain from purchasing shares during certain blackout periods and when they are in possession of any material non-public information and (ii) to clear all trades with the Company’s legal counsel prior to execution. In addition, the initial shareholders agreed to waive their redemption rights with respect to their Founder Shares, Private Placement Shares and Public Shares in connection with the completion of a Business Combination.

Notwithstanding the foregoing, the Amended and Restated Memorandum and Articles of Association provide that a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Class A ordinary shares sold in the Initial Public Offering, without the prior consent of the Company.

The Company’s Sponsor, officers and directors (the “initial shareholders”) agreed not to propose an amendment to the Amended and Restated Memorandum and Articles of Association (A) that would modify the substance or timing of the Company’s obligation to allow redemption in connection with the Company’s initial business combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination within 24 months from the closing of the Initial Public Offering, or April 1, 2023 (the “Combination Period”) or (B) with respect to any shareholders’ rights prior to the initial Business Combination, unless the Company provides the Public Shareholders with the opportunity to redeem their Class A ordinary shares in conjunction with any such amendment.

If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay the Company’s income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders’ rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii) to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

**TWO**

**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The Sponsor, officers and directors agreed to waive their liquidation rights with respect to the Founder Shares and any Private Placement Shares they hold if the Company fails to complete a Business Combination within the Combination Period. However, if the initial shareholders or members of the Company's management team acquire Public Shares in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such Public Shares if the Company fails to complete a Business Combination within the Combination Period. The underwriter agreed to waive their rights to its deferred underwriting commission (see Note 5) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be only \$10.00 per share initially held in the Trust Account. In order to protect the amounts held in the Trust Account, the Sponsor agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the Trust Account or to any claims under the Company's indemnity of the underwriter of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except for the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

***Liquidity and Capital Resources***

As of June 30, 2021, the Company had \$1.2 million in its operating bank account, and working capital of approximately \$1.6 million.

The Company's liquidity needs to date have been satisfied through \$25,000 paid by the Sponsor to cover certain expenses in exchange for the issuance of the Founder Shares, a loan of approximately \$81,000 from the Sponsor pursuant to the Note (as defined in Note 4), and the proceeds from the consummation of the Private Placement not held in the Trust Account of \$2.5 million (net of a required reimbursement from the underwriter). The Company repaid the Note in full on April 5, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, provide the Company Working Capital Loans (as defined in Note 5). As of June 30, 2021, there were no amounts outstanding under any Working Capital Loan.

Based on the foregoing, management believes that the Company will have sufficient working capital and borrowing capacity from the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors to meet its needs through the earlier of the consummation of a Business Combination or one year from this filing. Over this time period, the Company will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial Business Combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the Business Combination.

**Note 2 — Summary of Significant Accounting Policies**

***Basis of presentation***

The accompanying unaudited condensed financial statements are presented in U.S. dollars in conformity with accounting principles generally accepted in the United States of America ("GAAP") for financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by GAAP. In the opinion of management, the unaudited condensed financial statements reflect all adjustments, which include only normal recurring adjustments necessary for the fair statement of the balances and results for the periods presented. Operating results for the three months ended June 30, 2021 or the period from January 15, 2021 (inception) through June 30, 2021 are not necessarily indicative of the results that may be expected through December 31, 2021.

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

The accompanying unaudited condensed financial statements should be read in conjunction with the audited balance sheet included in the Form 8-K and the audited financial statements and notes thereto included in the final prospectus filed by the Company with the SEC on April 8, 2021 and March 30, 2021, respectively.

***Emerging growth company***

As an emerging growth company, the Company may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that an emerging growth company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard.

This may make comparison of the Company's financial statement with another public company that is neither an emerging growth company nor an emerging growth company that has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

***Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had no cash equivalents as of June 30, 2021.

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

***Investments Held in Trust Account***

The Company's portfolio of investments is comprised of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. government securities and generally have a readily determinable fair value, or a combination thereof. When the Company's investments held in the Trust Account are comprised of U.S. government securities, the investments are classified as trading securities. When the Company's investments held in the Trust Account are comprised of money market funds, the investments are recognized at fair value. Trading securities and investments in money market funds are presented on the balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of these securities is included in income from investments held in the Trust Account in the accompanying unaudited condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Corporation Coverage limit of \$250,000. As of June 30, 2021, the Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the unaudited condensed balance sheet.

***Fair Value Measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

***Offering Costs Associated with the Initial Public Offering***

Offering costs consist of legal, accounting, and other costs incurred through the balance sheet date that were directly related to the Initial Public Offering and that were charged to shareholders' equity upon the completion of the Initial Public Offering.

***Class A Ordinary Shares Subject to Possible Redemption***

The Company accounts for its Class A ordinary shares subject to possible redemption in accordance with the guidance in ASC 480. Class A ordinary shares subject to mandatory redemption (if any) are classified as liability instruments and are measured at fair value. Conditionally redeemable Class A ordinary shares (including Class A ordinary shares

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

that feature redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control) are classified as temporary equity. At all other times, Class A ordinary shares are classified as shareholders' equity. The Company's Class A ordinary shares feature certain redemption rights that are considered to be outside of the Company's control and subject to the occurrence of uncertain future events. Accordingly, at June 30, 2021, 20,346,568 Class A ordinary shares subject to possible redemption are presented as temporary equity, outside of the shareholders' equity section of the Company's unaudited condensed balance sheet.

***Income Taxes***

The Company follows accounting for income taxes under FASB ASC 740, "Income Taxes," which prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of June 30, 2021. The Company's management determined that the Cayman Islands is the Company's only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties as of June 30, 2021. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

There is currently no taxation imposed on income by the Government of the Cayman Islands. In accordance with Cayman federal income tax regulations, income taxes are not levied on the Company. Consequently, income taxes are not reflected in the Company's financial statement. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

***Net Income (Loss) Per Ordinary Share***

The Company's unaudited condensed statements of operations include a presentation of net income (loss) per share for Class A redeemable ordinary shares subject to possible redemption in a manner similar to the two-class method of net income (loss) per ordinary share. Net income (loss) per ordinary share, basic and diluted, for Class A redeemable ordinary shares is calculated by dividing the interest income earned on the Trust Account, less interest available to be withdrawn for the payment of taxes, by the weighted average number of Class A redeemable ordinary shares outstanding for the periods. Net income (loss) per ordinary share, basic and diluted, for Class A and Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), adjusted for income attributable to Class A redeemable ordinary shares, by the weighted average number of Class A and Class B non-redeemable ordinary shares outstanding for the periods. Class A and Class B non-redeemable ordinary shares include the Founder Shares as these ordinary shares do not have any redemption features and do not participate in the income earned on the Trust Account.

At June 30, 2021, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

The following table reflects the calculation of basic and diluted net income (loss) per ordinary share:

	<b>For The Three Months Ended June 30, 2021</b>	<b>For The Period From January 15, 2021 (Inception) through June 30, 2021</b>
<i>Class A redeemable ordinary share</i>		
Numerator: Income allocable to Class A redeemable ordinary shares		
Income from investments held in Trust Account	\$ 1,952	\$ 1,952
Less: Company's portion available to be withdrawn to pay taxes	—	—
<b>Net income attributable to Class A redeemable ordinary shares</b>	<b>\$ 1,952</b>	<b>\$ 1,952</b>

**TWO**

Basic and diluted net income (loss) per share, Class A and Class B non-redeemable ordinary shares	<u>\$ (0.05)</u>	<u>\$ (0.06)</u>

**Recent Accounting Pronouncements**

In August 2020, the FASB issued ASU No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity’s Own Equity, which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. The Company early adopted the ASU on January 15, 2021. Adoption of the ASU did not impact the Company’s financial position, results of operations or cash flows.

The Company’s management does not believe that any other recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the accompanying unaudited condensed financial statement.

**Note 3 — Initial Public Offering**

On April 1, 2021, the Company consummated its Initial Public Offering of 20,000,000 Public Shares, at an offering price of \$10.00 per Public Share, generating gross proceeds of \$200.0 million, and incurring offering costs of approximately \$11.1 million (net of a required reimbursement from the underwriter), of which \$7.0 million was for deferred underwriting commissions.

The Company granted the underwriter a 45-day option from the final prospectus relating to the Initial Public Offering to purchase up to 3,000,000 additional Public Shares to cover over-allotments, if any, at the Initial Public Offering price less the underwriting discounts and commissions. The Underwriter partially exercised the over-allotment option and on April 13, 2021 purchased an additional 1,437,500 Class A ordinary shares (the “Additional Shares”), generating gross proceeds of approximately \$14.4 million, and the Company incurred additional offering costs of approximately \$755,000 (net of a required reimbursement from the underwriter), of which approximately \$503,000 was for deferred underwriting fees.

**Note 4 — Related Party Transactions**

**Founder Shares**

On January 21, 2021, the Sponsor paid \$25,000, or approximately \$0.004 per share, to cover expenses in consideration for 5,750,000 Class B ordinary shares, par value \$0.0001 (the “Founder Shares”). Up to 750,000 Founder Shares were subject to forfeiture to the extent that the over-allotment option was not exercised in full by the underwriter, so that the Founder Shares would represent 20.0% of the Company’s issued and outstanding shares after the Initial Public Offering. On March 8, 2021, the Sponsor transferred 25,000 Founder Shares to each of Michelle Gill, Ryan Petersen

## TWO

### NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

and Laura de Petra, and 30,000 Founder Shares to Pierre Lamond. Such shares will not be subject to forfeiture in the event the underwriter's over-allotment is not exercised. The underwriters partially exercised their over-allotment option on April 13, 2021 and on April 19, 2021, the Sponsor surrendered 390,625 Class B ordinary shares for no consideration resulting in 5,359,375 Class B ordinary shares issued and outstanding with no shares subject to forfeiture.

The initial shareholders agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination and (B) subsequent to the initial Business Combination, (x) if the closing price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of the Public Shareholders having the right to exchange their ordinary shares for cash, securities or other property.

#### *Private Placement Shares*

Simultaneously with the closing of the Initial Public Offering, the Company consummated the Private Placement of 600,000 Private Placement Shares, at a price of \$10.00 per Private Placement Share to the Sponsor, generating gross proceeds of approximately \$6.0 million. If the over-allotment option was exercised, the Sponsor could have purchased an additional amount of up to 60,000 Private Placement Shares at a price of \$10.00 per share. A portion of the proceeds from the Private Placement Shares was added to the proceeds from the Initial Public Offering held in the Trust Account. Simultaneously with the closing of the Over-Allotment on April 13, 2021, the Company consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 28,750 Private Placement Shares by the Sponsor, generating gross proceeds to the Company of \$287,500.

The Sponsor and the Company's officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Shares until 30 days after the completion of the initial Business Combination.

#### *Sponsor Loan*

On January 21, 2021, the Sponsor agreed to loan the Company up to \$300,000 pursuant to a promissory note (the "Note"). This loan was non-interest bearing and payable upon the completion of the Initial Public Offering. The Company borrowed approximately \$81,000 under the Note and repaid the Note in full on April 5, 2021.

#### *Working Capital Loans*

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company's officers and directors may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into private placement shares at a price of \$10.00 per share. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of June 30, 2021, the Company had no borrowings under the Working Capital Loans.

#### *Administrative Support Agreement*

On March 29, 2021, the Company entered into an agreement with the Sponsor pursuant to which, commencing on the date the Company's securities were first listed on the New York Stock Exchange, the Company agreed to pay the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services. Upon completion of the initial Business Combination or the Company's liquidation, the Company will cease paying these monthly fees. During the three months ended June 30, 2021 and for the period from January 15, 2021 (inception) through June 30, 2021, the Company incurred \$30,000 in expenses for these services, which is included in administrative expenses – related party on the accompanying unaudited condensed statements of operations. No amount was due as of June 30, 2021.

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

**Note 5 — Commitments and Contingencies**

***Registration Rights***

The holders of Founder Shares, Private Placement Shares, and Class A ordinary shares that may be issued upon conversion of Working Capital Loans were entitled to registration rights pursuant to a registration rights agreement signed upon consummation of the Initial Public Offering. These holders were entitled to make up to three demands, excluding short form demands, that the Company registers such securities. In addition, these holders will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The underwriter was entitled to an underwriting discount of \$0.20 per share, or \$4.0 million in the aggregate, paid upon the closing of the Initial Public Offering. In addition, \$0.35 per share, or approximately \$7.0 million in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that the Company completes a Business Combination, subject to the terms of the underwriting agreement.

The underwriter partially exercised the over-allotment option and was entitled to an additional fee of approximately \$55,000 (net of a required reimbursement from the underwriter), of which approximately \$503,000 was for deferred underwriting commissions fees.

***Risks and Uncertainties***

Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of this unaudited condensed financial statement. The unaudited condensed financial statement does not include any adjustments that might result from the outcome of this uncertainty.

**Note 6 — Shareholders’ Equity**

***Preference Shares***— The Company is authorized to issue 1,000,000 preference shares with a par value \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. As of June 30, 2021, there were no preference shares issued or outstanding.

***Class A Ordinary Shares***— The Company is authorized to issue 400,000,000 Class A ordinary shares with a par value of \$0.0001 per share. As of June 30, 2021, there were 22,066,250 Class A ordinary shares issued and outstanding, including 20,346,568 Class A ordinary shares subject to possible redemption.

***Class B Ordinary Shares***— The Company is authorized to issue 10,000,000 Class B ordinary shares with a par value of \$0.0001 per share. Holders are entitled to one vote for each share of Class B ordinary shares. On January 21, 2021, 5,750,000 Class B ordinary shares were issued to the Company’s Sponsor. Of the 5,750,000 Class B ordinary shares, an aggregate of up to 750,000 shares were subject to forfeiture to the Company for no consideration to the extent that the underwriter’s over-allotment option was not exercised in full or in part, so that the initial shareholders will collectively own 20% of the Company’s issued and outstanding ordinary shares (excluding the Private Placement Shares) after the Initial Public Offering. The underwriters partially exercised their over-allotment option on April 13, 2021, 390,625 Class B ordinary shares were surrendered for no consideration resulting in 5,359,375 Class B ordinary shares issued and outstanding with no shares subject to forfeiture.

**TWO**  
**NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS**

Holders of the Class A ordinary shares and holders of the Class B ordinary shares will vote together as a single class on all matters submitted to a vote of the Company's shareholders, except as required by law or stock exchange rule; provided that only holders of the Class B ordinary shares have the right to vote on the election of the Company's directors prior to the initial Business Combination.

The Class B ordinary shares will automatically convert into Class A ordinary shares on the first business day following the consummation of the initial Business Combination at a ratio such that the number of Class A ordinary shares issuable upon conversion of all Founder Shares will equal, in the aggregate, on an as-converted basis, 20% of the sum of (i) the total number of ordinary shares issued and outstanding upon completion of the Initial Public Offering (excluding the Private Placement Shares), plus (ii) the sum of the total number of Class A ordinary shares issued or deemed issued or issuable upon conversion or exercise of any equity-linked securities or rights issued or deemed issued, by the Company in connection with or in relation to the consummation of the initial Business Combination, excluding any Class A ordinary shares or equity-linked securities exercisable for or convertible into Class A ordinary shares issued, deemed issued, or to be issued, to any seller in the initial Business Combination and any Private Placement Shares that may be issued upon conversion of Working Capital Loans. In no event will the Class B ordinary shares convert into Class A ordinary shares at a rate of less than one to one.

**Note 7 — Fair Value Measurements**

The following table presents information about the Company's assets that are measured at fair value on a recurring basis as of June 30, 2021 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

Description	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investments held in Trust Account: Money Market Funds	\$214,376,952	—	—

Transfers to/from Levels 1, 2, and 3 are recognized at the beginning of the reporting period. There were no transfers between levels of the hierarchy for the six months ended June 30, 2021.

Level 1 assets include investments in money market funds that invest solely in U.S. government securities. The Company uses inputs such as actual trade data, quoted market prices from dealers or brokers, and other similar sources to determine the fair value of its investments.

**Note 8 — Subsequent Events**

Management has evaluated subsequent events to determine if events or transactions occurring through the date the unaudited condensed financial statements were issued, require potential adjustment to or disclosure in the unaudited condensed financial statements and has concluded that all such events that would require recognition or disclosure have been recognized or disclosed.

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

*References to the “Company,” “two” “our,” “us” or “we” refer to two. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.*

**Cautionary Note Regarding Forward-Looking Statements**

*This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other SEC filings.*

**Overview**

We are a blank check company incorporated as a Cayman Islands exempted company on January 15, 2021. We were formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). We are an emerging growth company and, as such, we are subject to all of the risks associated with emerging growth companies.

Our sponsor is two sponsor, a Cayman Islands exempted limited company (the “Sponsor”). The registration statement for our Initial Public Offering was declared effective April 1, 2021. On April 1, 2021, we consummated our Initial Public Offering of 20,000,000 Class A ordinary shares (the “Public Shares”), at an offering price of \$10.00 per Public Share, generating gross proceeds of \$200.0 million, and incurring offering costs of approximately \$11.1 million (net of a required reimbursement from the underwriter), of which \$7.0 million was for deferred underwriting commissions (see Note 5). The underwriter was granted a 45-day option from the date of the final prospectus relating to the Initial Public Offering to purchase up to 3,000,000 additional shares to cover over-allotments, if any, at \$10.00 per share. The Underwriter partially exercised the over-allotment option and on April 13, 2021 purchased an additional 1,437,500 Class A ordinary shares (the “Additional Shares”), generating gross proceeds of approximately \$14.4 million (the “Over-Allotment”), and we incurred additional offering costs of approximately \$755,000 (net of a required reimbursement from the underwriter), of which approximately \$503,000 was for deferred underwriting fees.

Simultaneously with the closing of the Initial Public Offering, we consummated the private placement (“Private Placement”) of 600,000 Class A ordinary shares (the “Private Placement Shares”), at a price of \$10.00 per Private Placement Share to the Sponsor, generating gross proceeds of approximately \$6.0 million (see Note 4). Simultaneously with the closing of the Over-Allotment on April 13, 2021, we consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 28,750 Private Placement Shares by the Sponsor, generating gross proceeds to the Company of \$287,500.

Upon the closing of the Initial Public Offering, the Over-Allotment, and the Private Placements, \$214.4 million (\$10.00 per share) of the net proceeds of the sale of the Public Shares in the Initial Public Offering and of the Private Placement Shares in the Private Placement were placed in a trust account (“Trust Account”), located in the United States with Continental Stock Transfer & Trust Company acting as trustee, and will invest only in United States “government securities” within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act that invest only in direct U.S. government treasury obligations, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the Trust Account as described below.

---

## Table of Contents

Our management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of Private Placement Shares, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that we will be able to complete a Business Combination successfully. We must complete one or more initial Business Combinations having an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. However, we will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

If we are unable to complete a Business Combination within the Combination Period, we will (i) cease all operations except for the purpose of winding up; (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay our income taxes, if any (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of the then-outstanding Public Shares, which redemption will completely extinguish Public Shareholders' rights as shareholders (including the right to receive further liquidation distributions, if any); and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining shareholders and the board of directors, liquidate and dissolve, subject in the case of clauses (ii) and (iii) to the Company's obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law.

### *Liquidity and Capital Resources*

As of June 30, 2021, we had approximately \$1.2 million in cash and working capital of approximately \$1.6 million.

Our liquidity needs to date have been satisfied through \$25,000 paid by the Sponsor to cover certain expenses in exchange for the issuance of the Founder Shares, a loan of approximately \$81,000 from the Sponsor pursuant to the Note (as defined in Note 4), and the proceeds from the consummation of the Private Placement not held in the Trust Account of \$2.5 million (net of a required reimbursement from the underwriter). We repaid the Note in full on April 5, 2021. In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of our officers and directors may, but are not obligated to, provide us Working Capital Loans (as defined in Note 5). As of June 30, 2021, there were no amounts outstanding under any Working Capital Loan.

Based on the foregoing, management believes that it will have sufficient working capital and borrowing capacity to meet its needs through the earlier of the consummation of a business combination or one year from this filing. Over this time period, we will be using these funds for paying existing accounts payable, identifying and evaluating prospective initial business combination candidates, performing due diligence on prospective target businesses, paying for travel expenditures, selecting the target business to merge with or acquire, and structuring, negotiating and consummating the business combination.

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that the specific impact is not readily determinable as of the date of the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

### **Results of Operations**

Our entire activity since inception up to June 30, 2021 was for our formation and the Initial Public Offering, and subsequent to the Initial Public Offering, the search for a target for its initial Business Combination. We will not be generating any operating revenues until the closing and completion of our initial Business Combination.

For the three months ended June 30, 2021, we had a net loss of approximately \$267,000, which consisted of approximately \$239,000 in general and administrative expenses, \$30,000 in administrative expenses – related party, partially offset by approximately \$2,000 in income from investments held in Trust Account.

---

## [Table of Contents](#)

For the period from January 15, 2021 (inception) through June 30, 2021, we had a net loss of approximately \$355,000, which consisted of approximately \$327,000 in general and administrative expenses, \$30,000 in administrative expenses – related party, partially offset by approximately \$2,000 in income from investments held in Trust Account.

### **Related Party Transactions**

#### *Founder Shares*

On January 21, 2021, the Sponsor paid \$25,000, or approximately \$0.004 per share, to cover expenses in consideration for 5,750,000 Class B ordinary shares, par value \$0.0001 (the “Founder Shares”). Up to 750,000 Founder Shares are subject to forfeiture to the extent that the over-allotment option is not exercised in full by the underwriter, so that the Founder Shares will represent 20.0% of our issued and outstanding shares after the Initial Public Offering. On March 8, 2021, the Sponsor transferred 25,000 Founder Shares to each of Michelle Gill, Ryan Petersen and Laura de Petra, and 30,000 Founder Shares to Pierre Lamond. Such shares will not be subject to forfeiture in the event the underwriter’s over-allotment is not exercised.

The initial shareholders agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination and (B) subsequent to the initial Business Combination, (x) if the closing price of Class A ordinary shares equals or exceeds \$12.00 per share (as adjusted for share splits, share capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which we complete a liquidation, merger, share exchange, reorganization or other similar transaction that results in all of the Public Shareholders having the right to exchange their ordinary shares for cash, securities or other property.

The underwriters partially exercised their over-allotment option on April 13, 2021 and on April 19, 390,625 Class B ordinary shares were surrendered for no consideration resulting in 5,359,375 Class B ordinary shares issued and outstanding with no shares subject to forfeiture.

#### *Private Placement Shares*

Simultaneously with the closing of the Initial Public Offering, we consummated the Private Placement of 600,000 Private Placement Shares, at a price of \$10.00 per Private Placement Share to the Sponsor, generating gross proceeds of approximately \$6.0 million. A portion of the proceeds from the Private Placement Shares was added to the proceeds from the Initial Public Offering held in the Trust Account. Simultaneously with the closing of the Over-Allotment on April 13, 2021, we consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 28,750 Private Placement Shares by the Sponsor, generating gross proceeds of \$287,500.

The Sponsor and our officers and directors agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Shares until 30 days after the completion of the initial Business Combination.

#### *Sponsor Loan*

On January 21, 2021, the Sponsor agreed to loan us up to \$300,000 pursuant to a promissory note (the “Note”). This loan was non-interest bearing and payable upon the completion of the Initial Public Offering. We borrowed approximately \$81,000 under the Note and repaid the Note in full on April 5, 2021.

#### *Working Capital Loans*

In addition, in order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of our officers and directors may, but are not obligated to, loan us funds as may be required (“Working Capital Loans”). If we complete a Business Combination, we would repay the Working Capital Loans. In the event that a Business Combination does not close, we may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination,

---

## [Table of Contents](#)

without interest, or, at the lender's discretion, up to \$1.5 million of such Working Capital Loans may be convertible into private placement shares at a price of \$10.00 per share. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of June 30, 2021, we had no borrowings under the Working Capital Loans.

### *Administrative Support Agreement*

On March 29, 2021, we entered into an agreement with the Sponsor pursuant to which, commencing on the date our securities were first listed on the New York Stock Exchange, we agreed to pay the Sponsor a total of \$10,000 per month for office space, secretarial and administrative services. Upon completion of the initial Business Combination or our liquidation, we will cease paying these monthly fees. During the three months ended June 30, 2021 and the period from January 15, 2021 (inception) through June 30, 2021, we incurred \$30,000 in expenses for these services, which is included in administrative expenses – related party on the accompanying unaudited condensed statements of operations. No amount was due as of June 30, 2021.

### **Contractual Obligations**

#### *Registration Rights*

The holders of Founder Shares, Private Placement Shares, and Class A ordinary shares that may be issued upon conversion of Working Capital Loans were entitled to registration rights pursuant to a registration rights agreement signed upon consummation of the Initial Public Offering. These holders were entitled to make up to three demands, excluding short form demands, that we register such securities. In addition, these holders will have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of the initial Business Combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

#### *Underwriting Agreement*

The underwriter was entitled to an underwriting discount of \$0.20 per share, or \$4.0 million in the aggregate, paid upon the closing of the Initial Public Offering. In addition, \$0.35 per share, or approximately \$7.0 million in the aggregate will be payable to the underwriter for deferred underwriting commissions. The deferred fee will become payable to the underwriter from the amounts held in the Trust Account solely in the event that we complete a Business Combination, subject to the terms of the underwriting agreement.

The underwriter partially exercised the over-allotment option and was entitled to an additional fee of approximately \$755,000 (net of a required reimbursement from the underwriter), of which approximately \$503,000 was for deferred underwriting commissions fees.

### **Critical Accounting Policies**

The preparation of financial statements and related disclosures in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following as our critical accounting policies:

#### *Investments Held in the Trust Account*

Our portfolio of investments is comprised of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less, or investments in money market funds that invest in U.S. government securities and generally have a readily determinable fair value, or a combination thereof. When our investments held in the Trust Account are comprised of U.S. government securities, the investments are classified as trading securities. When our investments held in the Trust Account are comprised of money market funds, the investments are recognized at fair value. Trading securities and investments in money market funds are presented on the balance sheets at fair value at the end of each reporting period. Gains and losses resulting from the

---

## [Table of Contents](#)

change in fair value of these securities is included in income from investments held in the Trust Account in the accompanying unaudited condensed statements of operations. The estimated fair values of investments held in the Trust Account are determined using available market information.

### *Offering Costs Associated with the Initial Public Offering*

Offering costs consisted of legal, accounting, underwriting fees and other costs incurred through the balance sheet date that were directly related to the Initial Public Offering and that were charged to shareholders' equity upon the completion of the Initial Public Offering in April 2021.

### *Net Loss Per Ordinary Share*

Our condensed statements of operations include a presentation of net income (loss) per share for Class A redeemable ordinary shares subject to possible redemption in a manner similar to the two-class method of net income (loss) per ordinary share. Net income (loss) per ordinary share, basic and diluted, for Class A redeemable ordinary shares is calculated by dividing the income from the Trust Account, less interest available to be withdrawn for the payment of taxes, if any, by the weighted average number of Class A redeemable ordinary shares outstanding for the periods. Net income (loss) per ordinary share, basic and diluted, for Class A and Class B non-redeemable ordinary shares is calculated by dividing the net income (loss), adjusted for income attributable to Class A redeemable ordinary shares, by the weighted average number of Class A and Class B non-redeemable ordinary shares outstanding for the periods. Class A and Class B non-redeemable ordinary shares include the Founder Shares as these ordinary shares do not have any redemption features and do not participate in the income earned on the Trust Account.

At June 30, 2021, we did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into ordinary shares and then share in the earnings of our Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

### *Recent Accounting Pronouncements*

In August 2020, the FASB issued ASU No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity's Own Equity (Subtopic 815-40): Accounting for Convertible Instruments and Contracts in an Entity's Own Equity, which simplifies accounting for convertible instruments by removing major separation models required under current GAAP. The ASU also removes certain settlement conditions that are required for equity-linked contracts to qualify for the derivative scope exception and it also simplifies the diluted earnings per share calculation in certain areas. We early adopted the ASU on January 15, 2021. Adoption of the ASU did not impact our financial position, results of operations or cash flows.

Our management does not believe that any other recently issued, but not yet effective, accounting standards updates, if currently adopted, would have a material effect on the accompanying financial statement.

### **Off-Balance Sheet Arrangements**

As of June 30, 2021, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K.

### **JOBS Act**

The Jumpstart Our Business Startups Act of 2012 (the "JOBS Act") contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We qualify as an "emerging growth company" and under the JOBS Act are allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, the financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

---

## [Table of Contents](#)

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an “emerging growth company,” we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor’s attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor’s report providing additional information about the audit and the financial statements (auditor discussion and analysis) and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO’s compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our Initial Public Offering or until we are no longer an “emerging growth company,” whichever is earlier.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

### **Item 4. Controls and Procedures**

#### *Evaluation of Disclosure Controls and Procedures*

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2021, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer has concluded that during the period covered by this report, our disclosure controls and procedures were effective.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

#### *Changes in Internal Control over Financial Reporting*

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2021 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **Item 1. Legal Proceedings**

None.

### **Item 1A. Risk Factors**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

Simultaneously with the closing of the Initial Public Offering, we consummated the private placement (“Private Placement”) of 600,000 Class A ordinary shares (the “Private Placement Shares”), at a price of \$10.00 per Private Placement Share to the Sponsor, generating gross proceeds of approximately \$6.0 million (see Note 4). Simultaneously

---

## [Table of Contents](#)

with the closing of the Over-Allotment on April 13, 2021, we consummated the second closing of the Private Placement, resulting in the purchase of an aggregate of an additional 28,750 Private Placement Shares by the Sponsor, generating gross proceeds to the Company of \$287,500.

In connection with the Initial Public Offering, our sponsor had agreed to loan us an aggregate of up to \$300,000 pursuant to the Note. This loan is non-interest bearing and payable on the consummation of the Initial Public Offering. As of March 31, 2021, the loan balance was approximately \$81,000. The Company repaid the Note in full on April 5, 2021.

Of the gross proceeds received from the Initial Public Offering and the partial exercise of the option to purchase additional Shares, \$214,375,000 was placed in the Trust Account. The net proceeds of the Initial Public Offering and certain proceeds from the Private Placement are invested in U.S. government treasury bills with a maturity of 185 days or less and in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations.

We paid a total of approximately \$4.0 million (net of required reimbursement from the underwriter) in underwriting discounts and commissions related to the Initial Public Offering. In addition, the underwriters agreed to defer approximately \$7.5 million in underwriting discounts and commissions.

**Item 3. Defaults upon Senior Securities**

None.

**Item 4. Mine Safety Disclosures.**

Not applicable.

By: /s/ Kevin Hartz  
Name: Kevin Hartz  
Title: Co-Chief Executive Officer

**CERTIFICATION**  
**PURSUANT TO RULES 13a-14(a) AND 15d-14(a)**  
**UNDER THE SECURITIES EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO**  
**SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Kevin Hartz, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2021 of two:
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. [Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313];
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls over financial reporting.
